		L.	In January 1952, an NCO of the border guard detail in Bozsok was transferred to the newly established border guard detail in Eucsu (P 48/C 69).	
25X1		5.	An engineer equipment depot was located on the west bank of the Small Danube River, just north of the Leitha River mouth, about 1.5 km southeast of Roson-Maryarover (P 18/Y 16). The depot consisted of a guard room, a shed, about 50 x 20 meters, four pontoons, a one-story magazine about 20 x 10 meters, a small brick building and a one-story dwelling, 12 x 12 meters. The depot was surrounded by a wire fence and was guarded by soldiers wearing dark green service color.	Logya
25X1			an engineer battalion was quartered in the barracks on Level Street in Moson-Magyaróvár. **	25X1
		6.	A border guard detail of about 35 soldiers was quartered in a one-story building on Foe Street in Dunakiliti (P 48/Y 17) in November 1951. The detail had several horses and three shepherd dogs. Another border guard detail was stationed in Rajka (P 48/Y 07) in the fall of 1951.	
STAT 25X1			Unit was stationed in Satoraljaujhely (R 49/F 50) in the fall of 1951.	
25X1		46	Comment. The two installations were occupied by AVH units until	
25X1	•		Cornent. The Kisbodák engineer training area is located near loson lagyarovár. The equipment depot probably belongs to this training area or to the engineer battalion stationed in loson Magyarovár.	25X1
